Ramesh Sippy Academy of Cinema and Entertainment

From the Founder's Desk:

Newsletter Date
Volume 1, Issue 1

There has been a fundamental change over the years in the way cinema and entertainment is consumed in our country. In addition to cinema screens and televisions at home, there are a plethora of handheld devices at one's disposal. The internet has become a major source when it comes to consuming content – computers, laptops, mobile phones, tablets define the new-age consumers of entertainment. At **RSACE**, it is our endeavour to equip students with the skills

required to create content that keeps pace with new-age media. Having said that, while the mediums have changed, the ethos of cinema and entertainment remains untouched and at its very core, cinema is all about stories. **RSACE's** core purpose is to produce generations of film professionals that will contribute to great storytelling," **Ramesh Sippy**.film making, by the highly respected and recognized, Mumbai University and **Garware University**. With the same vision we start our monthly newsletter, our book of memories of the

happenings of the institute.

What our students have to say?

- I thought I would have my nose stuck in a book while cynical professors looked bored. But it was not so. The course is revolutionary and relevant. The faculty is dynamic and interested. The icing on the cake are my brilliant, talented, humane batch mates.
